Published Music (Composer and Author Entries)	1
Title Index	217
Classified Index	267
Claimant Index	317

PREFACE

THIS part of the *Catalog of Copyright Entries* contains a list of the domestic and foreign published music registered in the Copyright Office from January 1, 1949, through June 30, 1949. Included also are selected works registered as unpublished music and musical materials registered as books, pamphlets, dramas, and contributions to periodicals. Renewal registrations of music made in this period are listed in Part 14B of the *Catalog*.

Arrangement.—The main section contains entries giving complete information about each work, arranged alphabetically under the name of the person chiefly responsible for the work (composer, editor, arranger or compiler). Cross-references are made for the names of others who participate in the work.

The second section is a Title Index, in which each registration is listed under its title. The name under which the full entry is given in the main section follows the title.

The third section is a Classified Index in which each registration is listed under the medium of performance of the work, or, when the music is of a special type, under the subject heading for that group. For a fuller explanation, see the introduction to the index itself.

The fourth section is a Claimant Index in which each registration is listed under the name of the person or firm appearing in the application as the copyright claimant.

Entry.—The names by which the entries are alphabetized are given in the fullest known form, with cross-references from pseudonyms, nicknames, and forms contrary to normal usage in the particular language.

MARAIS, JOSEF, *pseud.* *See* Pessac, Joseph.
GRASSI, ANTONIO DE. *See* De Grassi, Antonio Joachim.

In the main entry, the name used in the heading is followed by the title and the names of all the authors. Name of publisher and place of publication are given when the publisher and claimant are not the same. When no publisher is given, it is to be understood that the claimant is the publisher.

Filing titles are supplied when necessary to bring together all excerpts from one work, or to file nondistinctive titles under the name of the musical form. Filing titles are placed in curves in front of the title as given on the work, for example:

^(Roberta) The touch of your hand, from the musical play Roberta.
^(Concerto, violin, no. 2, A minor) Deuxième concerto pour violon & orchestre.

The caret preceding the title indicates that Library of Congress printed cards are available for purchase. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress.

Copyright Data.—The statement giving the facts of copyright registration begins with the copyright symbol ©, which is followed by the name of the claimant, and for claimants other than individuals, the place of publication, the date of publication given on the application, and the registration number. If the claim is based on new matter, a brief description of the new matter is given between the date and the registration number.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy), as required by Title 17, U. S. C., secs. 12, 13 or 215 has been made. Foreign works for which two copies have been deposited, under sec. 215, are distinguished by a registration number, the first digit of which is a zero.

Authority.—The *Catalog of Copyright Entries* is published by authority of Title 17,

U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 3 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should henceforward be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as subscriptions to continue until further notice, or (2) as orders for individual issues. All orders should state clearly the title and inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either in advance (accompanying the order) or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* for one year may be secured on a subscription basis for $20.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
